

Pankaj Kumar Pk

Full-Stack Javascript Application Developer

Seeking for a career opportunity to utilize my web application development skills and provide significant contribution to the success of my employer effectively. Willingness to work hard in a challenging environment with a purpose of growth, knowledge and creativity in order to achieve organizational goals.

RESPONSIBILITIES

- Develop new user-facing features
- Build reusable code and libraries for future use
- Ensure the technical feasibility of UVUX designs
- Optimize application for maximum speed and scalability
- Assure that all user input is validated before submitting to back-end
- Collaborate with other team members and stakeholders

BACK-END QUALIFICATION

- Knowledge of Node.js and frameworks available for it such as Express, StrongLoop, etc depending on your technology stack
- Understanding the nature of asynchronous programming and its quirks and workarounds
- Good understanding of server-side templating languages (such as Jade, EJS, etc depending on your technology stack)
- Good understanding of server-side CSS preprocessors such as Stylus, Less, etc depending on your technology stack
- Basic understanding of front-end technologies, such as HTML5, and CSS3
- Understanding accessibility and security compliance Depending on the specific project
- User authentication and authorization between multiple systems, servers, and environments
- Integration of multiple data sources and databases into one system
- Understanding fundamental design principles behind a scalable application
- Understanding differences between multiple delivery platforms, such as mobile vs. desktop, and optimizing output to match the specific platform
- Creating database schemas that represent and support business processes
- Implementing automated testing platforms and unit tests
- Proficient understanding of code versioning tools, such as Git
- Proficiency with JavaScript and HTML5
- Professional, precise communication skills

BACK-END SKILLS

NODEJS

SOCKET.IO

REST API

FRONT-END SKILLS

HTML5 

CSS3 

JAVASCRIPT 

TYPESCRIPT 

ANGULAR 

RxJS 

React 

React Native 

Redux 

EDUCATION

BSc Mechanical Engineering

Khulna University of Engineering
& Technology, Khulna.

H. S. C

Govt. Azizul Haque College,
Bogra.

HOBBIES

Drawing, Designing
Traveling, Listening Music

FRONT-END QUALIFICATION

- Deep knowledge of Angular practices and commonly used modules based on extensive work experience
- Creating self-contained, reusable, and testable modules and components
- Ensuring a clear dependency chain, in regard to the app logic as well as the file system,
- Ability to provide SEO solutions for single page apps,
- Extensive knowledge of CSS and JS methods for providing performant visual effects and keeping the framerate above 30fps at all times,
- Thorough understanding of the responsibilities of the platform, database, API, caching layer, proxies, and other web services used in the system
- Validating user actions on the client side and providing responsive feedback,
- Writing non-blocking code, and resorting to advanced techniques such as multi-threading, when needed,
- Creating custom, general use modules and components which extend the elements and modules of core Angular
- Experience with all levels of operation available to the front-end, such as from creating XHRs in vanilla JS to using a custom wrapper around \$resource,
- Experience with building the infrastructure for serving the front-end app and assets,
- Architecting and automating the build process for production, using task runners or scripts,
- Documenting the code inline using JSDoc or other conventions,
- Writing extensive unit tests using automated TDD tasks,
- Creating e2e test suites for all components, and running them with Protractor (or a well reasoned alternative),
- Creating configuration, build, and test scripts for Continuous Integration environments.
- Thorough understanding of React.js and its core principles
- Experience with popular React.js workflows (such as Flux or Redux)
- Experience with data structure libraries (e.g., Immutable.js)
